PROFESSIONAL SUMMARY

UI/UX Designer and Product Designer with 3+ years of end-to-end design ownership across responsive web, mobile applications, AI dashboards, fintech, and enterprise products. Skilled across the full product design lifecycle — user research, information architecture, wireframing, prototyping, design systems, and developer handoff. Proven ability to translate complex business requirements into accessible, user-centered interfaces. Experienced in fast-paced startup environments with direct stakeholder collaboration, cross-functional alignment, and hands-on implementation.

CORE SKILLS & COMPETENCIES

Design Tools	Figma (Auto Layout, Components & Variants), Adobe XD, Sketch, Framer, Illustrator, Photoshop, WordPress
UX Research	User Research, User Personas, Journey Mapping, Competitive Analysis, Usability Testing, Requirement Gathering, Information Architecture
Product Design	Product Discovery, Wireframing, Prototyping, User Flows, Design Systems, Interaction Design, Responsive Design, Accessibility, Data Visualization, Dashboard UX, Mobile App Design
Dev & Collab	Developer Handoff, HTML, CSS, Stakeholder Collaboration, A/B Testing, Product Thinking, SEO Optimization, Cross-browser Compatibility

ACHIEVEMENTS

- Designed 15+ websites and 5+ mobile applications across startup and freelance engagements.
- Developed and deployed 15+ WordPress websites with responsive design and SEO optimization.
- Delivered end-to-end UX solutions across AI dashboards, fintech, and enterprise products.

WORK EXPERIENCE

UI/UX Designer | Halcyon Technologies Jul 2025 – Present • Hyderabad, TS

- Led end-to-end UX ownership for AI dashboard design — conducting user research, defining information architecture, and delivering high-fidelity Figma prototypes — bridging gaps between product, engineering, and business stakeholders.
- Designed data-rich enterprise application interfaces applying strong visual hierarchy, data visualization best practices, interaction design patterns, and micro-animations to reduce cognitive load and improve dashboard usability.
- Produced annotated design specs for developer handoff and maintained design system consistency from concept to pixel-perfect implementation in close collaboration with engineering and product teams.

UI/UX Designer | Product Designer | Freelance Feb 2025 – Present • Remote

- Led 5+ responsive web and 3+ mobile app projects end-to-end — from user research, user flows, and wireframing through high-fidelity prototyping, usability testing, and developer handoff — with full client ownership and stakeholder communication.
- Built scalable Figma design systems using Auto Layout, components, and variants to enforce visual consistency and accelerate design-to-development workflows across multiple client projects.
- Designed and deployed 5+ WordPress websites with UX best practices, responsive design, HTML/CSS customizations, and cross-browser compatibility, delivering client-ready sites on schedule.

UI/UX Designer | Product Designer | Vasmi Group Sep 2023 – Jan 2025 • Visakhapatnam, AP

- Sole designer responsible for 12+ responsive websites and 2 mobile apps — owning the full design lifecycle from discovery, requirement gathering, and persona development through prototyping, usability testing, and delivery in a fast-paced startup environment.

- Defined information architecture, mapped user flows, and built high-fidelity Figma prototypes with reusable design system components; produced annotated developer handoff documentation ensuring accessible, pixel-perfect implementation.
- Deployed 10+ WordPress websites with responsive design, SEO optimization, HTML/CSS customizations, and performance improvements — consistently meeting client timelines and stakeholder expectations.

FEATURED PROJECTS

NRI Money Transfer Platform · *Lead UI/UX Designer* · *Fintech*

Tools: Figma

- Conducted user research and competitive analysis to surface trust, security, and usability pain points in NRI cross-border payment flows — defining personas and journey maps to anchor all design decisions in real user needs.
- Designed mobile-first user flows and interaction patterns for onboarding, KYC, currency selection, and transaction confirmation — integrating trust signals, transparent fee structures, and accessibility best practices throughout.
- Delivered high-fidelity Figma prototypes iterated through multiple stakeholder review rounds, balancing business requirements with user-centered design principles.

E-Commerce Responsive Web & App Design · *Lead UI/UX Designer*

Tools: Figma

- Led end-to-end UX for a responsive e-commerce platform — conducting user research and journey mapping to identify friction in shopping flows, then translating findings into wireframes and high-fidelity prototypes for web and mobile.
- Restructured information architecture and navigation to reduce user drop-off; delivered conversion-focused product layouts and responsive design across all breakpoints, improving shopping experience coherence.

Insurance Platform Redesign · *UI/UX Designer*

Tools: Figma

- Redesigned information architecture and end-to-end application flow for a complex insurance platform — simplifying multi-step workflows with logical grouping and transparent progress indicators to reduce user confusion.
- Validated improvements through usability testing sessions, iterating on pain points to reduce drop-off and improve task completion confidence for first-time users.

Student & Teacher Portal | Podcast App | Franchise Platform · *UI/UX Designer*

Tools: Figma

- Designed responsive web portals and mobile-first app interfaces across multiple product types — applying role-based UX flows, accessibility best practices, consistent design system components, and cross-platform interaction design.
